**Date: 15/12/2013, Sunday**

**Time: 9.00 am - 4.00 pm**

**Venue: JSS Auditorium, Jayanagar, Bangalore**

**Dear friends,**

**Karthik Ultrasound Scan Centre** under the aegis of **MediScan**, Chennai has immense pleasure in welcoming you to **Gnanadhara 2013** - a Continuing Ultrasound Education (CUE) series.

The theme for this year's seminar is  
**"Fetal imaging-dilemmas and decisions".**

The highlights of the seminar will include live demonstrations by fetal imaging experts from Bangalore and Mediscan, Chennai, neonatal experts who will be sharing their expertise in postnatal management of fetal anomalies and an interactive session of exciting and challenging cases conducted by the ever enthusiastic Prof. Suresh.

Posters on interesting cases or studies are invited from young, aspiring sonologists/radiologists (less than 5 years experience in the field of fetal imaging). Best poster will be selected for an oral presentation at the CUE.

Make the best use of this opportunity to improve and enrich your knowledge.
